## **Save Money - Go Green - Help The Lions Club.**

The New Hartford Lions Club has joined with Viridian Energy to form a fundraising partnership. Viridian Energy is a licensed Connecticut electricity supplier. Their energy is greener and more affordable than the local utility. By switching your service today, you can save on your monthly UI or CL&P bill, do something better for the environment and enable The New Hartford Lions Club to continue to help others.

### **All at NO COST to you!**

For every customer that switches to Viridian, The New Hartford Lions Club will receive a monthly payment, each and every month, per customer, from Viridian Energy, as long as they stay a customer.

- There is no cost for you to switch!
- There are no contracts to sign!
- Viridian will appear on your UI or CL&P bill as your electric supplier.
- UI or CL&P will continue to service your utility lines
- Switching takes less than five minutes

### **There are two easy ways to Switch -**

1. Go to [www.viridian.com/nhlc](http://www.viridian.com/nhlc) and "Sign Up" under Become A Customer.
2. or call Penny Miller 860-482-7935 to request a customer form.
